Proclamation

BY WM. C. BOUCK, GOVERNOR OF THE STATE OF NEW-YORK. In obedience to that high sense of gratitude due the Almighty Ruler of the Universe, I do hereby designate THURSDAY, THE FOURTEENTH DAY OF DECEMBER NEXT, to be observed by the People of this State as a day of PRAYER PRAISE AND THANKSGIVING TO ALMIGHTY GOD.

for the numerous and unmerited blessings of the year. I feel assured that this act of public duty is in accordance with the wishes of the People, and will meet with universal acquies-

As a People, we have great reason to be thankful, and to praise the Almighty Dispenser of all Good, for the continued smile of His providence on our State and Nation. During the past year, we have been permitted to enjoy our re

ligious and political privileges unmolested. We have been exempt from those ravages of malignant disease which sometimes afflict a people. The senson has been highly propitious, and seldom has the harvest been more abundant. As a crowning blessing, the Spirit of the Lord has revived the hearts of Christians, and brought to a saving knowledge many who knew not For the distinguished blessings we have enjoyed, we should

raise our hearts in humble adoration to our Father in Heaven; thereby presenting to the world the imposing spectacle of the entire population of a great State, abstaining from all secular engagements on the day designated, and devoting themselves to the service of the Almighty.' We should always remember that righteousness exalteth a nation."

Given under my hand, and the privy seal of the State, at

the city of Albany, this tenth day of November, in the [L. S.] year of our Lord one thousand eight hundred and forty-

Election Returns.

The Loco-Focos have had very extravagant and mistaken returns from the West, and as our friends were ashamed to send any, our first accounts from that quarter were worse than the truth. They are bad enough at best, as we long since perceived they would be, but not so bad as they have been given. Monroe Co. elects two if not all three of the Whig Members and gives a Whig majority on Scnator. Wyoming is now reported to have elected all Whigs, but the Sheriff-Niagara has elected one Whig and one Loco to the Legislature. Erie gives over 900 Whig majority, and Genesee about 500: the Whig ticket in the latter was very unpopular. In Chautauque the coalition ticket has succeeded by a few votes over the regular Whig: the Sheriff, Clerk, and one Member Whig; two Members Locos .- 1400 Whig majority on Senator, electing Dr. Backus by 2,500 in the District. Cattaraugus is probably Loco. Allegany is reported 400 each way: we think the Whig report is correct. Livingston gives 700 Whig majority. Yates is 200 Loco. Broome has elected the Whig Member and given a majority for our Scnator, but the Sheriff and Clerk are lost by 15 and 20 votes. On the whole, we have just about as many Members of Assembly as last year, but have lost four Senators. The explanation is simple: The Election took place in a violent snow-storm; the People did not feel effort, and while about seven-eighths of the Locos went to the Polls. That is the whole story .- | last much longer! The Abolitionists have increased their vote to something like 20,000.

IT " So much for Protection !" exclaims the Plebeian, after stating that the wages of workmen in the nail-factories at Pittsburgh had been reduced twenty per cent. But what has 'Protection' done in the premises? If foreign-made nails were admitted free would that secure higher

- But where is the evidence that any such reduction of wages has taken place? We have none. Who knows what rate of wages was formerly paid, and what is paid now? Without these data who can judge whether any change was reasonable or otherwise? Nails are made and sold in this country cheaper than any where else, and if the Pittsburgh nail-makers were paying higher wages than rival producers of the same article, they would very naturally be driven to a reduction of wages. Yet nobody can tell whether this reduction-if such there were-was general or partial, what the standard at which it commenced, or whether the reduction were based on | ing a fugitive slave passed the House by the a diminution of hours of labor, an improvement of machinery, which enabled the workmen (by the piece) to earn more at the reduced price than they received before, or what was the reason of the reduction. It is enough that somebody has said that somebody's wages has been reducedthat is 'so much for Protection !'

We are ashamed of the necessity imposed on us of exposing the fallacy of such arguments against a wise and beneficent National policy, yet this must be done, so long as there shall be knaves capable of making such appeals to popular ignorance and alas! dupes to heed them.

OLD MASSACHUSETTS holds her Election to-day. Let those tremble who deserve defeat!

Maine tries to-day to choose four Members of Congress in Districts which effected no choice at the State Election.

A story has been going the rounds of the Loco-Foco papers that Hon. SAMUEL W. KING, ex-Governor of Rhode Island, is in prison for defrauding a corporation of which he was an officer! The Providence Journal of Saturday denounces this as a most infamous fabrication, without even a color of justification-one which no paper in Rhode Island would dare utter.

Mr. King was Governor of Rhode Island through the year 1842-a year memorable in her history, glorious in his. The momentous duties of his office required an entire devotion of his time and energies, for which the State paid him \$400! Of course, he went out of office bank. out-pouring of the People at every place where he rupt in all but honor.

IT Major Noan having killed Tylerism by supporting it, is now doing the same good service for Van Burenism. When Henry Clay is inau. gurated, he will walk on to Washington and claim the best office that may be going, on the ground of the aid he has given to the Whig cause by pretending to be Loco-Foco!

The Baltimore Sun says that GEO. W. Tyson of Philadelphia has been appointed Second Assistant Post Master General, vice John A. Bryan of Ohio removed. We fear this is not true. John Tyler has seldom done so wise a thing as favor an old and (of him) really deserving friend at the expense of a Loco-Foco Dalgetty of no account whatever.

Whig majority in Joint Ballot 46. Mr. Ferrell of Troup (Whig) was chosen Clerk on the 4th ballot, there being five candidates.

Gov. McDonald's valedictory Message is a do cument of monstrous length-half of it nearly fills the Savannah Republican. It estimates the Revenue of the current year at \$290,000; old balance and other resources, \$133,291 80, making a total of \$423,291 80. He estimates the Expenditures of the year at \$312,475, including \$95,000 for Interest on the State Debt and \$18,000 for arrears of Interest; and that next year, if the Legislature is not reassembled, as he thinks it need not be, the whole Expenditure will need be but \$180,475, including \$100,000 for Interest on Debt. In this way, the State will soon work out.

VERMONT .- The attempt to repeal the act of the last Legislature of Vermont virtually abolishing Capital Punishment has been signally defeated. A bill for that purpose was reported to the Senate, but was met by an amendment extending from a year to fifteen months the period for which a convict manslaver must remain in prison before he can be hung at any rate, and then requiring the direct assent of the Legislature as well as the Governor to a death-warrant .-This amendment, after an earnest discussion, prevailed: Yeas 17; Nays 13. The bill as amended passed by 24 to 5. So the restoration of hanging

in Vermont is put farther off than ever. A bill forbidding officer or jailer of the State to have any thing to do with arresting or detaindecisive vote of 167 to 5-all parties concurring.

We find in it the following: THE LIFE AND ADVENTURES OF M. VAN BUREN; BY WILLIAM L. MACKENZIE .- 1 am preparing for publication, in four numbers, large octavo, at one shilling each, an account of the life and political adventures of Mr. Van Buren. It will be printed on fine paper with small new type, so as to contain as much reading matter as can possibly be afforded at that price-and the object is to exhibit Mr. Van Buren's character, as shown by his conduct, in a form far more permanent than through the columns of a weekly newspaper. A large edition will be printed, and the usual discount, of e-third off, allowed to retailers. A work of this sort, constantly referring to documentary and other evidence and carefully confined to facts, for the truth of which I am held responsible to the legal tribunals of the country, will be much read and quoted, and cannot fail to exercise an influence on the Presidential election next year. Anecdotes and sketches of the characters of prominent politicians of the Albany or Van Buren school will be interspersed throughout.

IJ JOHN QUINCY ADAMS was expected at Cincinnati on the morning of the 5th inst. which is the date of our last advices. He had been received with the highest honors and a universal stopped on his route-at Erie, Pa. Cleveland, Ak. ron, &c. He has consented to deliver a Lecture at Louisville, Ky. and the largest Church in the City had been engaged for the occasion, and Mr. Garrison, the chief speaker, declared strongly would be crowded. This testimonial to the worth and services of Mr. Adams is the more striking as tendered by a slave-holding community, which, it is popularly supposed, never tolerates an open | the same reason. Elementary Political Knowledge. We have once already spoken favorably of the work entitled "An Introduction to the Science of Government, and Compend of the Constitutional and Civil Jurisprudence of the United States: With a Brief Treatise on Political Economy: Designed for the Use of Families and Schools: By Andrew W. Young." A copy of the tenth edition, however, having just reached us, we are impelled to speak of it again.

The deficiency of elementary knowledge with regard to Government and Political Economy is a deplorable defect under institutions so popular as ours. Here are thousands and tens of thousands of voters directing and changing by their suffrages the Policy of the Country without any clear notion of what they are about or the consequences of their action. Thousands have time and again voted to derange the entire Industrial movement of the Country, throwing themselves out of work and out of bread, and then vented their mistaken wrath in curses on Banks or capitalists as the authors of what was really their own doing. There is no clear conviction of the importange of knowledge on the vast and often intricate questions which demand the action of Government. Dogberry is the only authority for the assertion that 'Reading and Writing come by nature '-we generally expect some help from the schoelmaster in acquiring them-but the man who never read ten pages on Political Economy pronounces a Protective Tariff a blessing or a fraud and Banks beneficent or blighting-overruling the judgements of men who have devoted years to the study of the subject he so magisterially disposes of with as much confidence as if he were under the influence of Divine Inspiration. Your noisiest and most violent politicians are often men who never read even the Constitution of their State, and have a very imperfect acquaintance with that of the Union. Can we hope that the wheels of State will move on smoothly when their impulse is so blind and capricious?

The book before us is intended to minister to the grievous want we have indicated-to be the Blackstone of the school and the fire-side. It lucidly treats the Nature and Ends of Government, Human Rights, Natural Law, Law of Na. tions, Forms of Government, Sovereignty, Legislation, Judicial and Executive Power, Taxation; the Constitution of the United States, (which is given by sections, with explanations of each;) Civil Jurisprudence; Crimes and Pnnishments; and Political Economy. Under this latter head are given brief elucidations of Production, Capital, Division of Labor, Tariffs, Banks, Internal Improvements, Exchanges, Wages, Interest, Consumption, &c. Under the heads Protective Tariff and Banking a summary of the arguments for and against each is presented—we believe to the satisfaction of both sides. It is little to say that the author of this work has well performed the task he has undertaken; he has produced an admirable and most necessary treatise, which, being cheap and every way adapted to the end, ought to be reading-book in every school and studied in every family. We know many young men who have mastered Greek and Latin who might well give them both for a knowledge of the contents of this work .- We do not learn where it may be had in this City.

THE FOREIGN QUARTERLY REVIEW for October has just been reprinted by L. Scott & Co. The opening article is on 'Rousseau,' impartial, lucid and able. We have not read farther, but there are papers on A. W. Schlegel, Göthe, Louis Blanc's 'History of Ten Years,' Espartero, French Romancers on England, &c. which we mean to read the first spare hour.

THE MYSTERIES OF PARIS, No. V. has been published by J. Winchester, 30 Ann-st. This work is of a kind we neither like nor commend. but we are not at all surprised to hear that it is widely read and has created a decided 'scusation.' To read it is better than seeing a man hung, any day. We have been somewhat interested by the war of the publishers with regard to it, and, having heard both sides, are satisfied that Winchester's is not only the original American but incomparably the most faithful edition-in fact, the only one that nas any fust claim to be considered an English version of Eugene Sue's work. Whoever desires to catch the spirit and intent of the author should read this edition.

Mr. Clay on the Silk Manufacture.

Ashland, Nov. 6, 1843.

Dear Sir—I received your favor, and the copy your address on the culture of silk, for which cept my thanks. It contains many valuable uggestions. I have long entertained the opinion that the culture and manufacture of silk may be Penalty for disobedience a fine of \$1,000, or State | beneficially incorporated among the objects of our national industry. They require only patience, perseverance, and a careful attention to minute details. There is no just cause for the apprehension, entertained by some, that we may so multibly the proceeds of our domestic industry as to ave no subjects of exchange in foreign commerce. In any conceivable state of civilized society, there will always be, in the infinite variety Regency which now controls this State. Mac- of the productions of different soils and climates, and varied human industry, and in the tastes, caprices and wants of men, ample scope for foreign commerce. Of this truth, there are many obvious examples in the European nations.

Further Particulars of the Loss of the

Sheffield. Mr. Brooks, of the Express, one of the passenpers on board the Sheffield, has given the full details of her wreck on Saturday. They took a N. Y. Pilot on board at 7 o'clock, about 40 miles from the city, the wind blowing strong from the ESE., and at 12 made the Highlands. The ship was then tacked to make Staten Island light. and a sharp look-out kept. After running a sufficient time to make it, the officers of the ship began to be anxious, and orders were given to heave the lead. Before this could be executed the ship struck; at first gently, but the shock growing heavier with every succeeding one till the ship threatened to break in pieces under their violence. Consternation spread over the ship, and the multitude of steerage with the few cabin passengers rushed on deck, each intent on his own safety. The cries and shricks of those whose hopes of terminating their long voyage prosperously were thus suddenly destroyed, were painful and heart rending. The falling rain and driving mist, and heavy sea making a clear breach over the dismasted vessel, and the heavy shocks as she fell of the bottom, and the increasing darkness of night, conspired to render the scene one of the utmost gloom and terror. The fortunate change of the wind to the North-West, however, and the cheerful light of the moon rising at 9 o'clock, raised their hopes. Signals of distress had been flying from the masts while they stood, and blue lights and rockets burned. The water, however, rapidly gained upon the ship, and the passengers were driven from the cabin to take shelter in the round-house and on deck. "The hours of the night passed slowly and heavily" enough, we doubt not. About one o'clock the steamer Wave came in sight, filling every heart with joy, and the last rocket was sent up to attract her attention. She saw it and came to their rescue, and the steerage passengers "literally bounded from the shattered wreck into the steamer," followed by the cabin passengers. All hearts, it is said, gave

deliverance. The Captain and two mates with nine of the crew remained on board to save what they could of the cargo, with a lighter at hand to render assistance. Part of it will be saved, though in a damaged state.

a loud acknowledgement to God for a merciful

A card, acquitting Capt. Popham of all blame, has been signed by the cabin passengers.

The New-York American adds that the insurance on the cargo of the Sheffield in this city, is, as far as we could ascertain, about \$40,000-a larger sum is insured in England. On the ship, which was built in 1331, and about to be drawn from the line, there is insurance here of \$25,000. The Mutual Safety \$10,000, General Mutual \$11,000, Atlantic \$12,000. These are all on cargo. On the ship, the Atlantic has \$6000. General Mutual \$1000.

The Alliance, \$3,500 on cargo. The Jackson, the New York, and the Sun offices, where olicies are known to exist, declined giving any information We hear, however, that there is insured on cargo at the Jackson Company \$1000, New-York \$8000; on vessel and on freight \$5000, and at the Sun \$10,000 on eargo; the At-

Michigan.

We have reports from the Counties of Wayne, Washtenaw, Monroc, Jackson and Oakland, all of which have given Loco-Foco majorities, as Washtenaw ought not to have done. Gov. Barry's majority in Detroit is 58; McClelland's for Congress 153. The Loco-Focos have of course carried the State on all their tickets, though we think by a reduced majority.

Our city paid \$9,292 for Cleaning Streets from the 10th of October to the 4th of November-twenty-five days-according to the official report of the Comptroller. This is equal to \$140,000 per annum. Tax-payers! are you blind or only dead?

Gen. F. K. ZOLLICOPPIR, late Editor of the Nashville Banner, has been elected Comptroller of the Finances of Tennessee, by a vote in Joint Ballot of the Legislature, of 55 to 46 for D. Graham, the Loco incumbent.

NARRATIVE OF THE TRAVELS AND ADVEN-TURES OF MOISSIEUR VIOLET, in California, Sonora, and Western Texas; Written by Capt. Marryat, C. B." has been published by J. THE SEAMSTRESS: A TALE OF BOSTON.

This is a short Story illustrating the poverty and violation of feeling and injustice under which many poor girls in that city are compelled to struggle. We doubt not there is more truth than fiction in it. For sale by Burgess & Stringer, 222 Broadway, corner of Ann-st. Price, 121 cents.

CANADA .-- A correspondent of the Buffalo Commercial Advertiser says, that when the bill for the suppression of secret societies was before the Canadian Parliament, a furious scene ensued. Allan McNabb was taken in charge by the Sergeant-at-Arms for insulting the Speaker, and a mitimus was being made out to send him to prison, when a Mr. Prince convinced him he had done wrong, when he made an apology and the matter dropped.

I James McDermot, lately tried for murder, in Toronto, Canada, has been convicted and sentenced to be nung on the 21st inst.

Grace Marks, of the same place, tried as being accessary to the murder of Thomas Kinnear, has also been sentenced to be hung on the same day. When the verdict was given she swooned away and falling forward fell on one of the spike surrounding the dock and inflicted a wound upon her The jury sitting on the trial of Polly and

Joseph Philligs and Andrew Ball, for the murder of Joseph Orr, at Pittsburgh, at the last advices could not agree. The court said they could not be discharged, and the verdict is not vet received. A New Work .- A New-York correspondent

of the Charleston Mercury states that General Bertrand has now in press a work on the campaign of Napoleon in Egypt, dictated to him by the Emperor while at St. Helena, a few months before his death. IF A Mr. Daniel Speeden of Portsmouth, N.

H., committed suicide in New Orleans on the 3d inst. IT A fine quality of marble is said to be produced from the recently discovered quarries in Oldham Co.,

Dr EDWARD H. EFFINGWELL, formerly of New Haven, and late of Bowdoin College, has been appointed Professor of Chemistry and Natural History in the University of Missouri, at Columbia, in that State.

CITY INTELLIGENCE. Monday, November 13.

CORONER'S OFFICE ... FOUND DROWNED .- The ody of the person found in the water at the foot of North Moore-street, on Sunday and carried to the dead house, was identified to-day as that of Mr. John Colburn, a planter of Louisiana, who was last seen alive on the 2d inst. when he was dining with others at Gosling's. Verdict, found drowned.

The deceased, it appeared, was a Lieutenant-Colonel has handed us the following letter for publication, in the hope of its exciting others to similar reminiscences, and returns:

BUFFALO, Nov. 10-14 P. M. The fleet from the Upper Lakes, which came in on Wed. nesday, has been followed by another from Cleveland to-day with an unusually large aggregate of produce, principally Flour-say 20,000 bbls., and some invoices of Grain, perhaps 15,000 bushels, including one cargo of Corn, which was taken for the retail trade. Wheat is wanted by the Black Rock and other millers east; but in consequence of freights having advanced again, they refuse to purchase at anything over 75 cents, a quotation flatly refused by all the holdersand so the market stands to-day. There is plenty of rolling reight offering for Albany, and hence this firmness on the part of the forwarders in regard to Grain and other freights.

Sands's Sarsarabilla.—The success which has attended the application of this remedy for all diseases arising from an impure state of the blood, since its first introduction to the public by Messrs. Sands & Co. Druggists, NewYork, according to the testimony of many highly respectable individuals, is truly wonderful, and is a strong proof of its excellence.—Messrs. Smith & Fowle, the agents for this city, are daily receiving letters from individuals who have used it with success—many of them having been afflicted with diseases which seemed to be incurable, but by the use of this article have entirely recovered, and are anxious to add their names and testimony in its favor. Many of these letters are on file and will be shown to all who wish to see them, by calling at the store of the agents, No. 133 Washington street.

For conclusive evidence of its superior value and efficacy see certificates published in this and other city papers.

Prepared and sold at wholesale and retail, and for exportation, by A. B. SANDS & CO., Druggists, (Granite Buildings.) corner of Broadway and Chambers-street. Sold also by A. B. & D. SANDS, 79 Fulton, corner of Gold-intertant at 77 East Broadway, corner of Market-street. Price, 31 per bottle;—six bottles for \$5.

PRICE REDUCED.—DR. TAYLOR'S BALSAM OF LIVEL WORT—375 Bowery—To those who have coughs, or colds, asthma or consumption, we wound say, try then genuine Taylor's Balsam of Liverwort, made only at 375 Bowery; it is the only remedy to be relied on for the cure of the above mentioned diseases. Beware of all other medicines got up under different names by the mercenary, on the reputation of this article. The banefaced counterfeiter dare not imitate my new steel plate label, with the signature of Dr. Gurdon J. Leeds attached "to prevent counterfeits." Therefore be careful to see that that is on each bottle before you purchase. Certificates have frequently been published in the Commercial. Tribune, Herald, Sun and Chromicle newspapers with the names of Drs. Clinton Perkins and Hoffman, recommending it to patients who have voluntarily given in their cases to publish. Exagonic, and if you are not well (if medicine can cure you) it is your own toult. Buy as above, or of Dr. Leeds, wholesale Juggist, 123 Maiden lane, or of Mrs. Hayes, Agentfor Brook lyn, 139 Fulton street. PRICE REDUCED .- DR. TAYLOR'S BALSAM OF LIVEL

A Determination of Blood to the Head, as it is called

A Determination of Blood to the Head, as it is called, can be accounted for upon no other principle than corruptand stagnant humors in the veinous circulation, which preven the proper return of the vital fluid to the heart. The blood can have no more predilection for the head than any other purity indeed its own specific gravity would give a tendency to the extremities; but when the passages are choked up, and it becomes, as it were, prisoner in the head, no wonder there is a distention or swelling of the blood vessels, a presure upon the brain and headache, guddiness, palpitation of the heart, insanity, apoplexy, and other very dreadful results.

Wright's Indian Vegetable Fills are always certain to prevent the above unpleasant complaints; because they expel from the circulation those very humors which are the cause not only of all disordered motions of the blood, but of erecy malady incident to man. They also aid and improve digestion, and therefore will most assuredly give health and vigot to the body, as well as prevent any evil consequences from what is termed a rush of blood to the head.

Benare of Counterfeits,—In order to avoid being imposed upon by counterfeiters, be particular to purchase from none except advertised agents, or at the office and general depot, No. 283 Green wich-street, New-York.

Offices devoted exclusively to the sale of the Medicine, wholesale and retail:—Nos. 223 Green wich-street, New-York; No. 193 Tremont-street, Boston; and No. 169 Race-street, Philadelphia.

METALIC TABLET.—The reputation that this article has always sustained since its first introduction to the public, has excited the attention of many Cutlers, among whom some have endeavored to produce an article in imitation of, they knowing that a plain strop was not sufficient to sharpen or to keep a razor in order, but the mystery to them was to make a tablet, that without the use of oil or water, would impart to a razor a thin and amooth edge, and here they failed for a want of knowledge of ingredients; and that case that is always bestowed upon those of my manufacture.

G. Saunders, Inventor, 163 Broadway.
